Thanks. I passed this on to Bryan, I presume he'll come to you if he decides he wants more info on any of these.

Hello Bob,

Just getting caught up on some emails. I am not certain if we really have any thing here worth discussing. Here are a few suggestions, but please let me know if this is the kind of stuff we should provide him:

NBH – two issues:

1) We remain concerned with Aerovox's proposed remedy under the MCP. We have serious technical concerns and the consequences of failure are big for both the state and EPA. We need to make sure their source remedy for Aerovox does not re-contaminate the harbor. We could also tell him of our plan to construct a temporary cap.

Non-Responsive Record

Thanks

Lynne
